PROFESSIONAL SUMMARY

Software Developer with hands-on experience developing full-stack web applications using JavaScript, React.js, Node.js, Express.js, PHP, and MySQL. Experienced in REST API integration, authentication, and database design through internship and personal projects. Passionate about solving real-world problems, writing maintainable code, and continuously learning modern software engineering practices.

SKILLS

Programming Languages: Python, JavaScript, PHP, C
Frontend: HTML5, CSS3, Bootstrap, React.js, jQuery, Responsive Web Design
Backend: Node.js, Express.js, PHP, REST APIs
Databases: MySQL, MongoDB, SQL
Tools: Git, GitHub, Linux, VS Code, XAMPP
Core Concepts: Authentication, Session Management, Debugging, Cross-Browser Compatibility
Soft Skills: Communication, Teamwork, Problem-Solving, Collaboration

WORK EXPERIENCE

Web Development Intern CODTECH IT SOLUTIONS PRIVATE LIMITED , Hyderabad *Jun 2025 – Aug 2025*

- Developed responsive and database-driven web applications using HTML, CSS, JavaScript, PHP, and MySQL, improving application usability and maintainability..
- Implemented backend functionality, database integration, and authentication features to enhance application performance and reliability.
- Performed debugging, testing, and optimization, improving website responsiveness and reducing page load time by 15–20%.
- Collaborated with the development team to analyze requirements, resolve technical issues, and deliver high-quality software following industry best practices.

PROJECTS & PRESENTATIONS

AI-Powered Personal Health Assistant | Python, Scikit-learn, Pandas, NumPy, Tkinter, ML

- Developed an AI-powered health assistant that calculates BMI and predicts diabetes risk using a Random Forest machine learning model.
- Built an interactive chatbot interface to collect user health information and provide personalized risk assessments.
- Implemented data preprocessing, model training, prediction, and conversational interaction using Python.

Food Wastage Reduction & Donation Management System | HTML, CSS, JavaScript, PHP, MySQL

- Developed a role-based web application connecting Donors, NGOs, Volunteers, and Admins for efficient food donation management.
- Implemented the complete donation workflow with Pending → Accepted → Delivered status tracking.
- Built separate dashboards with features for food donation, NGO acceptance, volunteer delivery, donation history, and admin monitoring.
- Designed and integrated a MySQL database, user authentication, session management, and role-based access control using PHP.

Online Voting System for College Committees | HTML, PHP, CSS, MySQL, JavaScript, Bootstrap

- Developed a web-based system that enables students to register, securely log in, and select up to three college committees.
- Implemented committee-wise enrollment with vote confirmation, duplicate-selection prevention, and an undo option.
- Built an admin dashboard to manage committees and view member lists with student names, roll numbers, and participation counts.
- Designed a responsive user interface and integrated PHP–MySQL database operations, session-based authentication, and password hashing.

EDUCATION

BSc in Computer Science & Mathematics

2023 – 2026

Kristu Jayanti (Deemed to be University), Bengaluru

CERTIFICATIONS

- Introduction to Python – Infosys (2023)
- Introduction to Operating Systems – NPTEL (2025)
- Introduction to Generative AI – Simplilearn (2026)
- Fundamentals of Artificial Intelligence – Wadhvani Foundation (2026)
